In network with Blue Cross Blue Shield and accepting major insurances.

- **FREE Developmental Screenings**

Can be scheduled at the family's home, daycare / preschool.

EARLY INTERVENTION MAKES A DIFFERENCE

Achieve Beyond services children through the local Early Intervention Programs (ITC) and our private clinic program. We provide a variety of therapies and services to children with disabilities and developmental delays, ages birth to 12 years old.

We offer therapeutic services in English, French and Spanish in your home, daycare or our Tyson's clinic.

Achieve Beyond believes that each child can reach their potential through education, therapy, and family support services.

All children are unique; and sometimes some need some extra special care. At Achieve Beyond we evaluate a child's developmental abilities and if required the child can receive the appropriate therapy or other type of intervention he or she might need.
