

Direction Instruction Analysis Checklist

Student: _____ Instructor: _____

Date: _____ BCBA: _____

IOA: _____% Implementation Rating: _____%

S^d:	+	-
S ^d correlates with program procedure		
S ^d clear and concise		
S ^d contingent upon student attending		
Prompt:	+	-
Prompt correlates with program procedure		
Prompt maximally discriminable		
Prompt inserted in correct location within sequence		
Consequence:	+	-
Consequence correlates with response		
Consequence delivery immediate		
Consequence maximally discriminable		
Reinforcement:	+	-
Preference assessment conducted		
Reinforcer matches effort		
Reinforcer effective (increases target behavior)		
Rate of reinforcement at optimal level		
Error Correction:	+	-
Error correction delivered upon initial incorrect response		
Error correction effective in evoking correct response		
Error correction follows protocol		
Engineering:	+	-
Position of student/staff appropriate for program/student		
Position of materials appropriate for program		
Position of reinforcer appropriate for program/immediate delivery		
Position of follow-up programs and/or interspersing programs organized		
Position of visual supports appropriate		
Position of communication system appropriate for student/program		
Pacing of learn units at optimal rate		
Student on-task engagement maintained		

S ^d P C									
S ^d P C									

*a circle indicates incorrect delivery of S^d, Prompt, and/or Consequence.
